About Art UK

Art UK is an arts education charity on a mission to make the art in UK public collections accessible to everyone – for enjoyment, learning and research. We enable global audiences to learn about the nation’s art collection by digitising artworks, telling the stories behind the art and creating exciting opportunities for public interaction with art – both online and offline.

Over 80% of the nation’s art is not on public view, and until Art UK started its work much of this art had not been photographed. Our work is helping to radically change this, making what is publicly owned, publicly accessible – to anyone, anywhere. Originally focused on oil paintings, our scope has widened to include many mediums, from prints, drawings and watercolours to sculpture and photography.

We play a major role supporting public art collections by improving their accessibility and sustainability. Art UK currently shows over 300,000 artworks by over 53,000 artists. It is an ambitious collaboration between 3,400 institutions, making it one of the largest arts partnerships in the UK. No other country in the world has a resource like Art UK.

About The Superpower of Looking®

The Superpower of Looking® (SPoL) is an innovative and inclusive programme that seeks to transform the visual literacy skills of primary school children across the UK, taking the world of art and images as its starting point. Using a set of free teaching resources, children will gain an essential superpower: the ability to really 'see' – to critically observe, analyse, question, interpret, and empathise. Children will become visually literate in the image-dominated world around them.

The programme is designed to harness the power of digital learning, demonstrate the techniques of visual literacy, and provide children with sharpened powers of observation and analysis, as well as a love of art. While SPoL’s overriding focus is to equip children

with these vital lifelong skills, at a practical level it enables teachers to deliver many aspects of the Art and Design curriculum, as well as providing exciting new interdisciplinary approaches to learning.

Following two successful schools pilots, which involved the development of twenty KS2/Second Level lessons focused primarily on paintings, in 2023 we began our national rollout of SPoL across the UK, expanding the resource to include other 2D artforms and Key Stages. As part of this rollout, we are running multiple national marketing campaigns alongside a Teacher Champion Scheme, through which schools will be rewarded with a real artwork for utilising SPoL lessons in the classroom and helping us spread the word to other schools.
